Collagen is a very flexible structural protein, the most abundant and important in the human body, so much so that it constitutes 70% of the dry weight of human skin. Collagen forms fibers, collagen fibers, which are found in all animals and are secreted by connective tissue cells. It is the most abundant component of skin and bones, specifically it is responsible for forming the entire structure of the tissues of the skin, bones and joints.

PRESENTATION: bottle of 180 814mg tablets or 360 814mg tablets.

Collagen + Organic Silicon 360 tablets
