*Statos Plus is a food supplement from the Premium line of Prisma Natural, it is made with natural ingredients and contains Zinc, which contributes to normal cognitive function. Among the most outstanding ingredients are natural plants such as Ginger, Ginkgo Biloba and Melatonin.*

### DESCRIPTION

#### What is Statos Plus from Prisma Natural and what is it for?

It is a food supplement that serves to reduce the symptoms associated with dizziness, vertigo and tinnitus:

- Dizziness is an unpleasant feeling of unsteadiness, emptiness in the head and discomfort, which can be accompanied by symptoms such as cold sweat, paleness, nausea and vomiting. Vertigo, on the other hand, is a sensation of moving or spinning that can feel like dizziness and is described as "the feeling that the world is revolving around you."
- Tinnitus, also known as ringing in the ears, is quite common and can be a nuisance. In severe cases, they can affect sleep, concentration, and the ability to perform everyday tasks.
- Ginger is considered a superfood due to its high amount of nutrients and bioactive components that provide numerous benefits for physical and mental health.
- Ginkgo biloba is a living tree that has been around for a long time, and its leaves have traditionally been used to treat a wide variety of ailments due to its effective medicinal properties.

#### How should I take Statos Plus from Prisma Natural?

Take one Vegetable Capsule a day, with a glass of water.
