### DESCRIPTION

**IMPORTANT:** Discontinued product. It is replaced by Nocisens Intense. Link at the bottom of the page.

### What is Nocisens Baby and what is it for?

Nocisens BABY is a hypoallergenic moisturizing neurocosmetic cream for sensitive skin of children between 1 and 36 months. It is used for the care of sensitive skin of babies and children. Nocisens Baby is easy to spread and is quickly absorbed. Leaves skin hydrated and soft.

### How many times a day can I apply Nocisens Baby?

You should apply a sufficient amount of the product twice a day to the most sensitive and irritation-prone areas of your skin, including the diaper area. Perform a gentle massage until the skin has completely absorbed the product. In case of experiencing uncomfortable sensations due to skin dryness, you can increase the dose and apply the product 3 to 4 times a day.
