

Nocisens Oil 200ml Atopic skin

EAN: 8437020862080 FABRICANTE: PROSPERA BIOTECH

Nocisens® Oil is a dry oil. This moisturizing oil is used for the hydration, nutrition and regeneration of the skin of babies, children and adults. Designed for hydrating the skin throughout the body or in a large area of it. Its dry oil texture allows it to spread better. Neurodermatological oil.

DESCRIPTION

Nocisens Oil is a:

- Neurodermatological oil designed to nourish, regenerate and hydrate sensitive or atopic-prone skin.
- Designed for body care for the whole family.
- It is recommended to apply 1 or 2 times a day.
- Suitable from 3 months of age.

Dermatologically tested, Hypoallergenic.

How should Nocisens® oil be applied?

Apply to clean skin, spreading it throughout the body. Since it is a **dry oil**, it is absorbed quickly. It is recommended to apply once or twice a day to restore the balance of sensitive skin with atopic tendency. Its progressive effect allows you to recover and maintain the balance and good appearance of the skin after a few days of use.

Suitable from three months. The entire Nocisens® range can be used before or after other topical products or treatments.

Precautions to take into account with Nocisens® Oil

This oil is designed for external use. If it comes into contact with eyes, wash with plenty of clean water. Do not eat.

Is Nocisens® Oil effective?

Nocisens Oil 200ml Atopic skin

EAN: 8437020862080 **FABRICANTE:** PROSPERA BIOTECH

If you need a specific product for the daily care of sensitive and atopic-prone skin.

Nocisens[®] OIL is absorbed quickly and can help you mitigate these uncomfortable sensations and keep your skin hydrated and balanced.

The combination of avocado oil and oat extract, together with neurodermatological ingredients, cares for and protects sensitive skin by acting on the three necessary levels:

- Nourish and regenerate, thanks to the action of avocado oil which, with an extraordinary penetration capacity, nourishes the different layers of the skin, improving regeneration properties.
- Strengthen the barrier function of the epidermis and hydrate, restoring its natural balance. Oat extract stimulates the synthesis of ceramides and promotes the regeneration of skin cells, thus helping to increase natural hydration and reinforce the barrier function.
- Help reduce the annoying sensations typical of sensitive or atopic-prone skin using neurodermatological ingredients that help reestablish sensory balance.

Nocisens[®] OIL is suitable for the whole family, including children from 3 months of age. Its safety and effectiveness have been tested under pediatric and dermatological control.

You can use Nocisens[®] OIL at the same time as other topical products or drugs such as corticosteroids or antibiotics.

Our recommendation is that you apply Nocisens[®] OIL and wait until it has been absorbed before applying another product.

Studies carried out by independent companies have shown that the products of the Nocisens[®] line are well tolerated by all skin types, including the most sensitive in children:^{1,2}

- 100% of users stated that Nocisens[®] leaves their skin softer and calmer.
- 95% of users think that Nocisens[®] hydrates and nourishes the skin.
- 85% of users found their skin more flexible and elastic after using Nocisens[®].
- 85% of users felt comfort after using Nocisens[®].
