

## HENNA RADHE DEEP DARK BROWN TRATAM. 100 gr

EAN: 8423645310730 FABRICANTE: RADHE

*Henna is a natural dye made from plants of ecological origin, which makes it the healthiest option on the market.*

### DESCRIPTION

Chemical dyes can be a very aggressive treatment for the skin, often causing irritation, rashes, itching, etc. On the other hand, Henna, being a natural treatment, also takes care of the skin **by nourishing and moisturizing it**, thus preventing dandruff and hair loss. It also adds **shine and volume** to the hair, making the results more spectacular.

So, having these very healthy properties, Henna can be used by:

- **People with sensitive skin**
- **Pregnant women**
- **Children**

Henna applied to hair lasts between **1 and 2 months**. The more applications of henna are made, the more vibrant the color will be.

The **Deep Dark Chestnut Treatment** is a two-part application process that can be used to obtain a **very dark chestnut** color, almost like a black color with brown undertones. It will completely cover gray hair and give impressive volume to the hair.

### Application Instructions:

The application process will take a total of three days. First one color will be applied, and then the other will be reinforced.

Application Process: The treatment comes in two bags: Natural Copper Henna and Indigo.

- Day 1: Prepare (Preparation explained below) and apply **the Natural Copper Henna**, leaving the preparation on the hair for two hours, the gray hair will turn **orange**.
- Day 2: Let the color sit in your hair.
- Day 3: Prepare and apply the **Indigo**, and like day 1, leave it in your hair for two hours, thus achieving a **very Deep Dark Brown** tone.

### Preparation of Hennas (Both Copper and Indigo):

1. You will need the following items to make the mixture: Brush, wide comb, disposable gloves, disposable cap, container, tablespoon, henna shampoo, henna powder, henna beautifying balm, towel and hair dryer.
2. **Preparation:** Pour the dose of Henna powder into a bowl. Add two tablespoons of Radhe Shyam Beauty Balm and mix everything together. Dilute the mixture with very hot water until you obtain a smooth, creamy paste. Allow to cool. The mixture will be ready when it is lukewarm.
3. **Application:** With your hair dry, gradually apply the Henna paste to your hair by rubbing it into your scalp. Once the roots are evenly coated, do the same towards the tips. Gather all your hair on your head and massage gently for a few minutes.
4. **Drying:** Once your hair is gathered on your head, wrap it in a plastic cap and a towel, taking care to clean your skin so that it does not get coloured. You can, to benefit from more pronounced highlights, heat your hair with a hairdryer, as heat accentuates the colouring. In any case, let the preparation take effect, depending on the intensity desired.
5. **Conditioning:** After removing the plastic cap from your hair, rinse your hair with warm water until most of the paste has disappeared. Then use a Radhe Shyam Henna Shampoo, specially formulated to enhance the conditioning and coloring benefits obtained. As an essential end to your treatment, apply the Henna Balm, and massage it into your hair for one minute, setting the color and facilitating its conditioning.

**Attention :** It is recommended to do a first test on a strand, since each person reacts differently.

**Ingredients:** Lawsonia Inermis, Indigofera Tinctoria.
