

Henna Shampoo Frequent Washing

EAN: 8423645330455

FABRICANTE: RADHE

Radhe Shyam Henna Shampoo for Frequent Washes is a hair care product designed to gently cleanse the hair without stripping it of its natural oils. This unique formula is made with high-quality natural ingredients such as henna extract and chamomile.

DESCRIPTION

This henna shampoo is specially formulated to be gentle and effective for those who wash their hair frequently. Henna helps strengthen hair and prevent hair loss, while chamomile helps **moisturize and soften** hair for a healthier look.

Not only does it add freshness to the hair, but it also helps stimulate blood circulation in the scalp, which promotes hair growth and prevents dandruff, making it ideal for people with sensitive hair or irritated scalp.

Henna is a true gift from Nature, its properties have been used since ancient Egypt. Regular use of Radhe Shyam Henna Shampoos with extracts from organic farming will give your hair a new life, with **incomparable shine and natural softness**.
