

Marinepro 90 Capsules

EAN: 8713353476942 FABRICANTE: REJUVENAL

Food supplement based on Omega-3 and astaxanthin from Krill oil that contributes to normal visual, brain and cardiovascular functioning.

DESCRIPTION

What is Marinepro?

MarinePro® is a dietary supplement that contains Omega-3 and astaxanthin extracted from Krill oil, a species of small crustacean that lives in the waters of the Antarctic Ocean. This formula is highly beneficial since Krill, being a very pure marine organism and feeding mainly on algae, is an excellent source of Omega-3 and antioxidants such as astaxanthin, which has an antioxidant capacity 400 times greater than vitamin E. .

Unlike most fish oils, which contain different types of fats and whose absorption may be limited due to the presence of long-chain fatty acids, Krill oil is composed mainly of phospholipids, a form of fat easily absorption. Therefore, a smaller amount of MarinePro® is more effective in raising Omega-3 levels in the bloodstream, since phospholipids also contain Omega-3s.

MarinePro® provides EPA and DHA, which are beneficial for normal cardiovascular function, as well as DHA, which is important for maintaining normal brain and vision function.

What is Marinepro for?

- EPA and DHA contribute to the normal functioning of the cardiovascular system.
- DHA contributes to the maintenance of normal brain function.
- DHA contributes to the maintenance of normal vision.

What is the daily dose I should take of Marinepro?

1-6 capsules a day with food.

- 3 capsules contain 264 mg of EPA + DHA for normal heart maintenance.
- 6 capsules daily can help improve cognitive and visual functioning.

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241123
