

Aci Robis 60 Tablets

EAN: 8425198029152 FABRICANTE: ROBIS

Natural product for stomach problems such as heartburn, gastritis or pain, this remedy is an excellent option. In addition, it also helps improve digestion and reduce flatulence.

DESCRIPTION

What is Aci Robis and what is it for?

It is a food supplement that combines calcium carbonate and magnesium hydroxide, two natural antacids that work together to reduce gastric acidity. In addition, the green anise present in the formula not only leaves a pleasant aroma, but also helps fight bad breath.

In addition, Aci Robis has a pleasant flavor thanks to the incorporation of brewer's yeast in its formula. Brewer's yeast is rich in group B vitamins, which supports the transformation of proteins, fats and carbohydrates, improving the digestion of food.

What is the dosage of Aci Robis?

Dissolve one to two tablets in the mouth, three times a day, after meals.

What are the ingredients of Aci Robis?

- Saccharose
- calcium carbonate
- Licorice extract (may contain gluten) (Glycyrrhiza glabra L. root) 15.8%
