

Aji Robis 125 Capsules

EAN: 8425198082195 FABRICANTE: ROBIS

Garlic contributes to maintaining cardiovascular health and has an antibacterial effect.

DESCRIPTION

What is Aji Robis and what is it for?

It is a garlic food supplement known for its anti-inflammatory and antibiotic properties, which help improve the overall health of the body. In addition, garlic also promotes blood circulation, clears the respiratory tract and eliminates parasites in the intestines.

Garlic is also an excellent purifier of the body, since it not only eliminates parasites in the intestines, but also helps to eliminate toxins, heavy metals and traces of medicines in the body. In addition, regular consumption of garlic has been shown to help reduce bad cholesterol levels, which benefits the functioning of the cardiovascular system.

What is the dosage of Aji Robis?

You should take two capsules daily, with meals.

What are the ingredients of Aji Robis?

- Macerated garlic bulb oil 0.12% allicin (*Allium sativum* L.)
- Capsule (gelatin, glycerin)
- Antioxidants (Extract rich in natural tocopherols, ascorbyl palmitate and propyl gallate).
