

Depri Robis 30 Tablets

EAN: 8425198029237 FABRICANTE: ROBIS

Depri Robis is a food supplement made from a combination of plants, which can be of great help to relieve depressive states, anxiety, stress, asthenia, nervousness and anguish. The plants used in its formula may have antidepressant, anxiolytic and calming properties that help improve mood, reduce nervous tension and mental fatigue.

DESCRIPTION

What is Depri Robis and what is it for?

It is a natural food supplement that is used in situations of stress, fatigue, asthenia and states of nervous tension and anguish, due to its antidepressant and anxiolytic properties.

Xanthones and ketones from St. John's wort are especially useful for treating mild or moderate depression, without affecting cognitive functions or the ability to work or drive. Its effect can begin to be noticed after two weeks of treatment.

For its part, valerian is effective in situations of anguish, stress, menopausal disorders, headaches, among other ailments.

Eleutherococcus, a plant with thorns that is mainly used for its roots, has antidepressant and anxiolytic effects by acting on the central nervous system. In addition, it helps to improve mental activity, increasing the capacity for concentration and memory.

What is the dosage of Depri Robis?

You should take two tablets daily, swallowed with a sufficient amount of water, preferably in the morning.

What are the ingredients of Depri Robis?
