

Green Coffee 60 Capsules

EAN: 8425198059272 FABRICANTE: ROBIS

Robis Green Coffee helps you lose weight by accelerating fat metabolism, reducing glucose absorption and offering a mild laxative and satiating effect.

DESCRIPTION

What is Robis Green Coffee and what is it for?

Robis Green Coffee is a food supplement with multiple benefits for weight loss:

- It accelerates the metabolism of fats and decreases the absorption of glucose.
- It offers a satiating effect, which can help reduce food intake.
- It has a mild laxative effect that favors intestinal transit. For all these reasons, Robis Green Coffee is an ideal dietary supplement to include in diets aimed at losing weight.

What is the dosage of Robis Green Coffee?

You should take two capsules daily before a meal with a sufficient amount of water.

What are the ingredients of Robis Green Coffee?

- Green coffee dry extract 35 % (*Coffea arabica* L. seeds 50% chlorogenic acid)
- Chicory extract 90% Inulin (*Cichorium intybus* L. root)
- capsule (gelatin)
- Green tea powder, may contain gluten (*Thea sinensis* L. leaf)
- Anti-caking agent (gum arabic)
- Vitamin B6 (Pyridoxine hydrochloride)
- Chromium picolinate.

Does Robis Green Coffee have any contraindications?

Not recommended during pregnancy, lactation and in children under 12 years of age.
