Salus produces phyto-preparations for the care of our health. Salus uses raw materials obtained from organic crops, they do not contain preservatives or dyes, or synthetic aromas. Salus' flagship product is Floradix.

DESCRIPTION

Salus was opened in Germany in 1916, to market its Salus cure. Back then they were restorative infusions. The raw materials that Salus uses are not synthesized in a laboratory but are natural products, which come from crops or from wild collections. Floradix Salus is the best known of their products.
