Sanotint Sensitive 76 Amber Blonde

EAN: 8021685200068   **FABRICANTE:** SANOTINT

Sanotint Sensitive without p-phenylenediamine for the most sensitive scalp. With this dye you can obtain the desired colour tone easily, quickly and effectively. Sanotint's precious natural raw materials protect the hair.

DESCRIPTION

With Sanotint Sensitive even those with sensitive hair and scalp can dye their hair. Specially created for more sensitive skin and prone to allergic reactions. Sanotint Sensitive is an infinitely gentle and safe treatment for hair, thanks to the natural substances contained in its formula: extracts of golden millet, olive, nettle, birch and grape seed, as well as biotin and calcium pantothenate allow for a brilliant and long-lasting colour, keeping hair healthy, soft and shiny and ensuring perfect coverage of white hair from the first application.

Its application is very easy, its texture facilitates homogeneous distribution, it does not drip, it rinses like a shampoo and depending on the length of the hair it is enough for several applications.
Available in 15 bright colours that can be mixed together to achieve an individual colour.

- **without p-phenylenediamine.**
- **ammonia free.**
- **paraben free.**
- **paraffin-free.**
- **silicone free.**
- **formaldehyde free.**
- **without resorcinol.**
- **no added metals.**
- **suitable for vegans.**
- **nickel tested.**

Instructions for use

1. In a non-metallic container, mix well and in equal parts the contents of the dye with the fixing emulsion,

Sanotint Sensitive 76 Amber Blonde

EAN: 8021685200068 **FABRICANTE:** SANOTINT

always wearing gloves throughout the process.

2. Apply the mixture to dry, unwashed hair using a dye brush, starting at the roots and separating the hair into sections. If applying for the first time, spread the mixture over the rest of the hair using the entire mixture.

3. Leave on for 25 to 40 minutes; do not overdo it, especially with reddish tones. In the case of very grey or very resistant hair, leave on for up to 50 minutes.

4. After the application time has elapsed, rinse thoroughly until the water runs clear.

5. Then wash well with your favorite shampoo from the Sanotint line.

6. Towel dry and apply a moderate amount of Sanotint Revitalizing Balm, spreading it throughout the hair. Do not rinse.

7. Blow dry and style as usual.

HOW TO CHOOSE THE RIGHT COLOR

- Establish the starting color by comparing it with the Sanotint® color shades.

- Take into account the percentage of grey hair; we recommend mixing with natural shades.
- We recommend a Sanotint® dye 1 to 2 shades lighter than the required colour since the colour is darker thanks to the formulation of Sanotint®.
- The blonde shades of the Classic line do not allow additional lightening.

IMPORTANT

Evaluate the percentage of visible gray hair at the root line.

THE HIGHER THE PERCENTAGE OF GRAY HAIR, THE MORE CONVENIENT IT IS TO CHOOSE A NATURAL TONE AS A BASE.

Sanotint Sensitive 76 Amber Blonde

EAN: 8021685200068   **FABRICANTE:** SANOTINT

- Percentage of grey hair of 20-30%: use Sanotint® Classic or Sensitive
- Percentage of grey hair < 20%: possibility of using Sanotint® Reflex

Exception: Sanotint® Sensitive no. 87 intense golden blonde and Sanotint® Sensitive no. 88 extra light blonde.

In the case of very fine hair, the dye may be darker than expected. In this case, choose lighter shades.
