

RegenXtreme ampoules 30 units x 2 ml

EAN: 8437016882115 **FABRICANTE:** SERUMLOGY

Regenerative cocktail. Coenzyme Q10 and Vitamin E are the two most important antioxidants for the skin. Oxidation is the main cause of skin aging.

DESCRIPTION

Antioxidant effect. Restores the damaged skin barrier and increases elasticity. Great regenerative capacity.

How to use: Apply morning and night to a perfectly clean face. To enhance the treatment, also apply Lifexplode ampoules at night. For extremely dry skin.

Coenzyme Q10 is essential for generating energy. Together with vitamin E, it forms a defense against oxidative attack.

Provides the necessary substances to restore the energy of epidermal cells and stimulate cellular metabolism.

Intensely hydrates, facilitating cell repair and providing elasticity.

Thanks to its cellular regeneration power, it helps to slow down premature skin aging.

Your beauty routine starts here

- Shake the ampoule, insert the safe breaking accessory, and break it.
- Once the ampoule is broken, insert the applicator until it fully engages.
- Apply a third of the contents of the ampoule to the palm of your hand and spread it over the facial features, as well as the neck and neckline.

In all Serumology references you will find the accessories to break the ampoule and apply the product.
