Silicium Laboratories was born to improve the health of all of us through natural medicine. Natural organic silicon relieves joint pain because what it does is help our body to produce more collagen, which is the lubricant that our joints need to avoid pain or inflammation.

DESCRIPTION

Doctor Le Ribault's silicium is a natural, organic silicon, excellent for joint pain. Initially, Silicium was manufactured in Switzerland but a man from Tarragona who contacted Dr. Le Ribaut when he saw that silicium was widely implemented in Spain and there was a lot of interest on the part of medical professionals, gave him the power to manufacture in Spain. .
