**100% biodegradable** cardboard container, its convenient format allows it to be carried everywhere.

Perfect for the whole family: **Adults and children.**

Suitable for **all skin types**, ideal for specific areas most exposed to the sun.

Suitable for **daily use.**

**Vegan and cruelty-free .**

### What are the ingredients of the Sol de Ibiza Solar Stick?

- Zinc Oxide will protect your skin by absorbing UVA, UVB and blue light rays.
- Sweet almond oil will nourish and hydrate your skin.
- Aloe vera is the natural moisturizer par excellence.
- Sunflower seed oil is antioxidant, anti-inflammatory and antibacterial.
- Cocoa butter is nutritious and anti-inflammatory, and protects from damage caused by UV rays.
- Caprylic triglycerides are produced by the esterification of glycerol (vegetable sugars) with mixtures of caprylic and capric fatty acids from coconut oil. They give the skin a silky touch, instead of greasy; especially in waterless formulations.
- Wild mallow extract. Malva sylvestris is widely used in traditional Mediterranean medicine for the treatment of external and internal inflammations.
- Tocopherol is a form of vitamin E that comes from vegetable oils. It works as an antioxidant and skin conditioner. It also has anti-inflammatory properties.
- Cetyl palmitate. It is an ester that is used as a thickener and emollient (conditions the skin surface). It is 100% of plant origin.

## Solar Stick SPF50 BIO 40 g Bar Without Plastic

**EAN:** 0745760227051    **FABRICANTE:** SOL DE IBIZA

- Lecithin, extracted from sunflower oil, lecithin is a natural component of skin cell membranes. Promotes hydration and elasticity of the skin.
- Citric acid is a natural antioxidant, used to balance the pH of cosmetics.
- Caprylic triglycerides are produced by the esterification of glycerol (vegetable sugars) with mixtures of capric fatty acids from coconut oil. They give the skin a silky (rather than greasy) feel, especially in waterless formulas.
