Web: <https://www.stada.es/>

Stada is a pharmaceutical manufacturer. It manufactures generic drugs, which include prescription pharmaceutical products and, on the other hand, non-prescription products. Stada's best known and most prestigious brands are: venoruton, Trofolastin, lactoflora, ladival. neositrin.

DESCRIPTION

STADA is a manufacturer with a long history and tradition in pharmacies, with more than 125 years of history. With our products we help protect and restore people's well-being. With our generic medicines, we make sure that health remains accessible to everyone. Stada focuses on generic drugs, including specialty pharmaceuticals, on the one hand, and consumer health care products on the other.
