

Oroxon Complex 60 Capsules

EAN: 8437010670046 FABRICANTE: TAXON

It is a food supplement, based on minerals that have a fundamental role in muscle contraction and in the maintenance of the vascular system.

DESCRIPTION

What is Oroxon Complex and what is it for?

Calcium, magnesium and potassium trigger the activity of many enzymes and play a fundamental role in processes such as muscle contraction and the electromagnetic balance of membranes, including the vascular system. These minerals, when transported by mild organic acids such as taurinates and glycerophosphates, have the ability to enter all cellular compartments. This establishes a solid foundation for effective cell repolarization.

What are the ingredients of Oroxon Complex?

- Calcium citrate-malate 150 mg
- Magnesium Taurinate 150mg
- Potassium glycerophosphate 150mg
- vit. C (l-ascorbic acid) 26.66 mg
- Microcrystalline cellulose loading agent E-460 10 mg
- Silicon dioxide anti-caking agent 10 mg
- Magnesium stearate anti-caking agent 3.34 mg

What is the recommended daily dose of Oroxon Complex?

You should take one capsule three times a day, once before breakfast, once before lunch, and once before dinner.
