Aromadifusion mist Diffuser and humidifier

EAN: 8436553170389 **FABRICANTE:** TERPENIC

- Green LED: Continuous (infinity)
 - yellow LED. Intervals of 30 minutes ON and 30 Minutes OFF
 - MIST off
- The amount and intensity of fog produced by haze can vary. It is NOT unusual and should NOT be considered a defect. Factors that affect this include the type of water, humidity, temperature, and drafts.
 - The unit will not work without water.
 - Only 100% natural essential oil or synergy of this product can be used. Those that contain chemical fragrance, essence or impurities will cause a malfunction. Use 2-3 drops per 100 ml of water at a time. Too much oil will clog the system and cause a malfunction. clean the unit according to the maintenance instructions, before changing it to use a new type of essential oil.
 - Essential oils can damage surfaces. Use with caution.
 - For optimum performance and to avoid spills and accidents, always place the diffuser on a flat, level surface.
 - The essential oils or synergies that are used must be liquid in nature. Resins, oleoresins or viscous oils do not allow their direct diffusion.

MAINTENANCE:

After using 5-6 times or 2-3 days, clean the product as follows:

- Unplug unit from power and remove cover.
- Empty the remaining water from the tank. Make the discharge on the side marked as Discharge Point (DRAIN SIDE) of the tank.
- Unplug the power cord from the base of the unit.
- Clean with a soft cloth. Avoid the area of the ultrasonic vibration plate, which can be gently cleaned with a cotton ball.

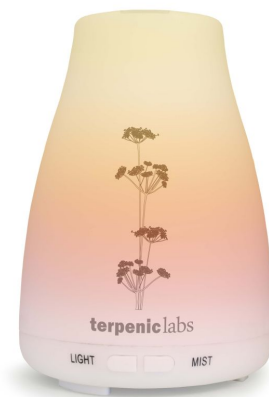

Never use acids, enzymes or detergents. They may cause hazards by generating poisonous gas or cause a malfunction.

The cover has an inner cover that can also be removed for cleaning.
