\*NRV: Nutrient reference values.

## BIFIsiete defenses 200 gr

EAN: 8436005300517 FABRICANTE: TONGIL

**OTHER INGREDIENTS:** Corn maltodextrin, corn starch, fructooligosaccharides, inulin, potassium chloride, hydrolyzed vegetable protein, magnesium sulphate, amylase enzyme, vanilla flavouring and manganese sulphate, tropical juice (banana, apricot, orange, pineapple, passion fruit, lemon, grapefruit, mango, guava, antioxidant citric acid, sucrose and food salt), sweetener: steviol glycosides, natural coconut flavouring, anti-caking agent: silicon dioxide.

### DIRECTIONS FOR USE:

Take one measuring scoop a day (included in the package) dissolved in a glass of water or any other liquid.

**HEALTHY PROPERTIES:** Vitamins C and D and the mineral Zinc contribute to the functioning of the immune system.

### BIFISIETE FORMULA ADVANCE QUALITY:

- Broad spectrum symbiotic blend of latest generation Lactic Ferments, derived from bovine whey, lactose-free.
- 2 billion CFU from 9 selected lactic ferment strains in a specific matrix with protective and nutritional functions, stabilized through ProbioAct® technology to increase the effectiveness of Bifisiete Formula Advance Defensas, which guarantees high survival through the digestive tract and its activation in the intestine.
- They have a long shelf life, are kept at room temperature and controlled humidity, and colonize and multiply quickly and effectively in the intestine.
- Soluble and stable. When a powdered product is rehydrated (before ingestion), unprotected lactic ferments can experience an osmotic shock that destroys them and renders them useless. The ingredients present in Bifisiete Formula Advance Defensas create an isotonic environment that reduces osmotic shock and therefore keeps them alive during rehydration.
- Formula reinforced with vitamin D3 (cholecalciferol, active form of vitamin D), vitamin C in its non-acidic form (not aggressive for the digestive system), and the mineral Zinc in the gluconate form.

**RECOMMENDATIONS:** Health properties authorised in the European Register No. 432/2012 or entered in the Register of the European Food Safety Authority (EFSA). Food supplements should not be used as a substitute for a balanced diet and a healthy lifestyle. Do not exceed the recommended daily dose. Keep out of reach of children. To meet nutritional needs, it is important to consume a varied and balanced diet
