DESCRIPTION

What is Estado Puro Maxi Enzymes and Probiotics from Tongil used for?

It serves for digestive well-being.

Calcium contributes to the normal functioning of digestive enzymes.

What does Estado Puro Maxi Enzymes and Probiotics contain?

18 Broad Spectrum Digestive Enzymes, specific for digesting Carbohydrates, Proteins and Fats. High Bioavailability, of microbial and plant origin, which They resist stomach acidity and act on the different sections of the digestive tract.

High Potency, expressed in FCC Enzyme Activity Units, a standardized measure for plant enzymes that accurately describes the potency of activity of each enzyme.

400 million CFU (colony forming units) from 9 different lactic ferment strains, stabilized through ProbioAct technology, which guarantees survival through the digestive tract and its activation in the intestine.

With Fructo-Oligosaccharides, a prebiotic fiber that feeds lactic ferments so they can multiply quickly and effectively in the intestine.
