### DESCRIPTION

#### What is Beta Glucano Complex from Viridian and what is it for?

Supporting a healthy immune system is important to increase resistance to infections. Viridian Nutrition Beta Glucan Complex ingredients provide daily nutritional care for a healthy immune system.

This specialized supplement combines a balance of four powerful nutrients: beta glucan, vitamin D3, vitamin C and zinc. This combination helps maintain a healthy immune system, especially during the winter months or during periods of increased physical or emotional stress.

This effective formula contains beta glucan in the essential 1.3/1.6 form, which is a natural fiber from yeast. Vitamin C further strengthens the body's natural defenses by supporting immunity, helping to protect cells from oxidative stress, and helping to reduce tiredness and fatigue. In this formulation developed by nutritionists, vitamin C is obtained from natural corn and is subsequently combined with zinc. This serves to cushion vitamin C, reducing acidity and therefore making it gentler on the stomach. The addition of zinc and vitamin D works to support normal immunity.

Contains 100% active ingredients formulated by expert nutritionists with no artificial or nasty fillers. Sourced in accordance with Viridian's strict ethical criteria, including no testing on animals, GMOs or palm oil.

Beta Glucan Complex provides Beta Glucan in the 1.3/1.6 form. With buffered vitamin C, zinc and vegan vitamin D3 from lichens. Vitamin C, zinc and vitamin D contribute to the normal functioning of the immune system. 100% active ingredients formulated by expert nutritionists.

#### In which cases is it indicated to take Beta Glucano Complex from Viridian?

- Vegan form of vitamin D from lichens.
- Vitamin C, D and zinc contribute to the maintenance of normal immune function.
- Provides a clinically researched dose of Beta Glucan.
