EAN: 8436594151378

FABRICANTE: VIT.O.BEST

Contributes to improving male sexual health. Suitable for celiac people. 100% natural ingredients.

### DESCRIPTION

#### What is 4Men from Vitobest® and what is it for?

**4Men**, from **Vitobest®**, is a food supplement and serves to help improve male sexual health.

Its advanced formula combines the combined action of **PrimaVie®**, **maca**, **fenugreek** and **Oxystorm®** to help maximize circulation, increase vasodilation, effectively contributing to increasing vigor and regaining desire.

Its high **PrimaVie®** content helps to increase both free testosterone and total testosterone (the male hormone par excellence) which supports sexuality, libido, erection and increases energy.

Both **Oxystorm®** and Muira Puama help increase nitric oxide production and pelvic peripheral circulation.

#### Greater resistance.

**4Men** contains extracts of the highest quality of *Rhamponticum carthamoides* and ashwagandha (powerful adaptogens), which prolong the time of intercourse, extending pleasure and reducing recovery time, thus achieving maximum satisfaction.

#### The importance of nitric oxide

Nitric oxide plays a fundamental role in the erection process. The erection is initiated by parasympathetic stimulation that motivates the release of nitric oxide in the nerve endings and vascular endothelium. Although erection depends on a complex interaction of numerous factors (including psychological ones), the role of nitric oxide is fundamental.

#### What is the composition of 4Men by Vitobest®?

**4Men**, from **Vitobest®**, is composed of:

##### PrimaVie®:

- It helps improve male sexual health, increasing both free and total testosterone, as well as nitric

oxide levels .

### **MacaFull® (0.6% macamides and macaenes):**

- Maca extract ( *Lepidium meyenii* ) with 0.6% macamides and macaenes (the purest extract in active ingredient on the market). Eating this plant increases fertility and improves sexual desire.
- A study conducted in Italy in 2009 in men with mild erectile dysfunction verified the positive effects of maca in regulating erectile dysfunction. Men who consumed maca achieved better results than those in the placebo group.
- Numerous studies show that maca positively modulates sexual behavior and increases libido .
- Most of the testosterone in the blood is bound to the protein sex hormone binding globulin (SHBG), while the portion that is not bound to it is known as 'free testosterone,' and it is precisely on this where it can be found. influence maca.

### **Rhampoticum carthamoides:**

- It is a powerful classic adaptogen that increases the capacity for dynamic work, helping to extend pleasure and reducing recovery time.

### **Muir Puama:**

- In the short term, it increases blood flow to the pelvic area, helping to prolong erections in men.
- Long-term use increases the production of sex hormones in both sexes.

### **Androfen®: fenugreek extract ( *Trigonella foenum-graecum* ):**

- The active ingredient is furostanol, enhanced to 75%.
- The extract of this species is a safe and effective alternative to reduce symptoms of possible androgen deficiency as it improves sexual function and increases serum testosterone in healthy

middle-aged and older men .

### Oxystorm®:

- It provides standardized nitrates of the highest quality, in greater quantities than other most used sources.
- It is a well-documented and clinically studied supplement, with a multitude of clinical studies that support its effectiveness .
- Nitric oxide enhancer.
- Increases general vigor, endurance and vascularity.

### Zinc (Albion?):

- Zinc balances correct hormonal secretion, especially testosterone .

### Boron:

- It intervenes directly in the metabolization of estrogens and intervenes in arousal.
- Contributes to increasing testosterone levels.
