

Artiflex Forte 15 g Box 22 Envelopes

EAN: 8436594152641 FABRICANTE: VIT.O.BEST

Synergistic formula to help with joint pathologies, recovering damaged cartilage and reducing pain and inflammation. With Fortigel® Bioactive Collagen Peptides® (GELITA), Ayuflex® (Terminalia chebula), BCM-95® turmeric extract, Boswellia serrata, BCAAs and vitamin C.

DESCRIPTION

What is ArtiFlex Forte by Vitobest® and what is it for?

ArtiFlex Forte, from **Vitobest®**, is a next-generation synergistic formula with hydrolyzed collagen peptides (**Fortigel® Bioactive Collagen Peptides®**) (**GELITA**), **Ayuflex®** (*Terminalia chebula*), **BCM-95®** turmeric extract, *Boswellia serrata*, BCAA and vitamin C that act together to help with joint pathologies, recovering damaged cartilage and reducing pain and inflammation.

Collagen is the most abundant protein in the body.

Collagen is the main component of connective tissue and the most abundant protein in the body (30%).

White connective tissue is everywhere, providing structure and transferring strength without breaking down.

Bioactive peptides for maximum effectiveness.

Most collagen supplements on the market are composed of hydrolyzed collagen that has very low absorption, slow and annoying digestion and little ability to act on specific structures, bones, joints or muscles, having very low effectiveness.

ArtiFlex Forte, from **Vitobest®**, incorporates latest generation bioactive peptides (**Fortigel® Bioactive Collagen Peptides®**) (**GELITA**) that act directly by stimulating the production and regeneration of articular cartilage. These peptides are characterized by a specific molecular weight profile, and with proven optimal stimulation in specific cells.

Maximum digestibility due to its helical peptide form, achieving maximum absorption and bioavailability.

Due to their specific composition, bioactive peptides act on the target cells (bone, cartilage, muscles or tendons) in three phases, compared to the two phases of common hydrolysates:

Artiflex Forte 15 g Box 22 Envelopes

EAN: 8436594152641 FABRICANTE: VIT.O.BEST

1. Stimulating the cell.
2. RNA translation.
3. Biosynthesis of the extracellular matrix.

Not all collagen supplements are the same and effectiveness depends directly on them reaching and stimulating the correct structures and cells. The specific formula of **ArtiFlex Forte** directly stimulates chondrocytes, helping to regenerate and maintain the articular cartilage matrix.

The reinforced formula of **ArtiFlex Forte** acts synergistically, helping to reduce joint pain and inflammation. The combined action of all its components helps to recover damaged cartilage and is useful as a preventative of joint pathologies.

- **Fortigel®**: bioactive peptides with maximum bioavailability and effectiveness that directly and specifically stimulate chondrocytes to produce collagen and restore damaged cartilage.
- **Ayuflex®**: powerful natural anti-inflammatory that acts by inhibiting the inflammation-inhibiting enzymes COX-1, COX-2 and 5-LOX, which are related to pain and joint inflammatory processes. It helps reduce inflammation, improve recovery (acting as an analgesic, supported by clinical studies) and improving joint function.
- **BCM-95®**: highly bioavailable turmeric extract that helps reduce inflammation.
- **Boswellia serrata**: powerful natural anti-inflammatory.
- **BCAA**: help improve the production and fixation of articular cartilage by chondrocytes.
- **Vitamin C**: helps improve collagen fixation.

Benefits of ArtiFlex Forte by Vitobest®:

- Greater increase in joint collagen fixation.
- BCAAs that help increase signaling effectiveness and transport.
- Powerful anti-inflammatory effect that helps improve joint homeostasis and make collagen fixation more effective.
- Act at the root of the problem.
- Regenerates articular cartilage.
- Preserves optimal joint mobility.
- Contributes to the reduction of joint pain and inflammation.
- Very pleasant flavor and effectiveness with lower doses.
- Presentation in envelopes that facilitate transportation and taking.

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241127

Artiflex Forte 15 g Box 22 Envelopes

EAN: 8436594152641 FABRICANTE: VIT.O.BEST

Scientific studies support the effectiveness of **ArtiFlex Forte** in the prevention and treatment of pathologies related to articular cartilage, improving mobility, reducing pain and recovering cartilage.

What is the composition of ArtiFlex Forte by Vitobest®?

Ingredients: Fortigel® Bioactive Collagen Peptides® (GELITA): hydrolyzed collagen peptides, whey protein isolate (Lacprodan® WPI 90) (Arla®) (Arla®) (**milk** and **soy**), L-Leucine (Ajinomoto®)), aroma: orange, L-Isoleucine (Ajinomoto®), L-Valine (Ajinomoto®), acidulant: anhydrous citric acid, ascorbic acid (vitamin C), BCM-95® (Curcugreen®): dry extract and rhizome oleoresin turmeric (*Curcuma longa*), dry extract of boswellia resin (*Boswellia serrata*), Ayuflex®: dry extract of *Terminalia chebula* fruit, citrus fiber, lemon juice powder, sodium chloride and sweetener: sucralose.

Composition	for 15g
Tendoforte® Bioactive Collagen Peptides®	
Hydrolyzed collagen peptides	5g
Whey Protein Isolate (Lacprodan® WPI 90) (Arla®)	3.9g
L-Leucine (Ajinomoto®)	1g
L-Isoleucine (Ajinomoto®)	600 mg
L-Valine (Ajinomoto®)	600 mg
Vitamin C *(625%)	500 mg
BCM-95® (CURCUGREEN®)	
Dried ext. and oleoresin from turmeric rhizome (<i>Curcuma longa</i>)	
95% Curcuminoids complex	500 mg
Boswellia resin dry ext. (<i>Boswellia serrata</i>)	
65% boswellic acid	500 mg
Ayuflex®: ext. dried <i>Terminalia chebula</i> fruit	250 mg

*% Nutrient Reference Value (NRV)
