

DAA (D-Aspartic Acid + Zinc) 90 Caps

EAN: 8436540531049

FABRICANTE: VIT.O.BEST

D-Aspartic Acid (DAA), the main ingredient of DAA, from Vitobest®, is an amino acid that helps stimulate hormonal production in the pituitary gland, hypothalamus and testicles: it is essential in the production of compounds related to libido and tissue growth, with special relevance in the production of testosterone¹

DESCRIPTION

- D-Aspartic Acid (DAA) + Zinc Bisglycinate.
- It helps to increase hormonal production in the testicles and pituitary gland.
- Contributes to normal fertility and reproduction.
- It may influence the maintenance of normal testosterone levels.
- Suitable for people with celiac disease.
- Vegetable capsules suitable for vegan diets and free of titanium dioxide.

Testosterone, which is produced primarily in the testicles of men and the adrenal glands of women, is secreted into the blood during endurance exercise, and up to an hour afterwards, ensuring muscle growth².

Our formula is enriched with zinc bisglycinate from **Albion™ TRAACS®**, a mineral that contributes to normal fertility and reproduction and to the maintenance of testosterone levels in the body².

Vitobest® uses **vegetable capsules** (VegeCaps) for this supplement, **suitable for vegan diets** and **free of titanium dioxide**.

Vitobest® DAA:

- Contains D-Aspartic Acid (DAA): helps increase hormone production activity in the testicles and pituitary gland.
- Enriched with zinc: contributes to normal fertility and reproduction and to maintaining testosterone levels.

Product claims:

- Zinc contributes to normal fertility and reproduction.
- Zinc contributes to the maintenance of normal testosterone levels.
