

PyloBest 60 vegetable capsules 100 mg.

EAN: 8436540536839 FABRICANTE: VIT.O.BEST

Food supplement made with Pylopass™ (Lonza®). It helps control *Helicobacter pylori* populations without altering the intestinal microbiota. It has high tolerance and can resist changes in the body during its action. It does not cause discomfort or increase resistance to antibiotics. Suitable for celiac people. Vegetable capsules suitable for vegan diets and free of titanium dioxide.

DESCRIPTION

Vitobest® presents **PyloBest** : the food supplement that helps control *Helicobacter pylori* populations without altering the intestinal microbiota.

Made with **Pylopass™** , from **Lonza®** , **PyloBest** is a food supplement for the control of the *Helicobacter pylori* bacteria that lives in the human gastric epithelium and can cause inflammation of the gastric mucosa, gastritis and peptic ulcers.

While probiotics support overall gut health by replacing harmful bacteria in the gastrointestinal tract, Pylopass? inactivated cells (which can withstand environmental fluctuations) specifically bind to *Helicobacter pylori* in the stomach. The surface structures of this scientifically proven strain ¹ contain adhesive molecules that recognize and adhere to the surface receptors of the bacteria to separate them from the gastric epithelium and facilitate their expulsion through the digestive tract, without associating or causing other disturbances on the microbial balance of the entire intestine.

For this supplement, **Vitobest®** uses **vegetable capsules** (VegeCaps) **suitable for vegan diets** and **free of titanium dioxide** .

PyloBest by Vitobest®:

- Helps control *Helicobacter pylori* without altering the intestinal microbiota.
- Resists changes in the body during its action.
- It has high tolerance.
- It does not cause discomfort or increase resistance to antibiotics.
