

Zinc Bisglycinate 50 Vegetable Capsules

EAN: 8436540532923 FABRICANTE: VIT.O.BEST

Supplement made from Albion amino-chelated zinc, which helps our body metabolize fatty acids, synthesize proteins and protect cells against oxidative damage. Suitable for celestial people. Vegetable capsules suitable for vegan diets and free of titanium dioxide.

DESCRIPTION

What is Zinc Bisglycinate, from Vitobest, and what is it for? Zinc, the active ingredient in Zinc Bisglycinate, from Vitobest, is an essential chemical element that we can obtain through a diet rich in meat and fish. However, some circumstances or poor eating styles do not allow us to reach the intake of 10 mg/day recommended for the proper functioning of our body. Zinc deficiency can even result in specific effects such as growth retardation, hair loss or digestive disorders. One way to alleviate these effects is through efficient supplementation. Faced with the problem that not all supplements or their absorption capacities are the same (those made with inorganic zinc generate almost zero bioavailability of this mineral), Vitobest presents its Zinc Bisglycinate. Made from organic amino-chelated zinc from Albion, the brand without a doubt of efficiency with the highest absorption percentages on the market, our product is supported by scientific studies. For this supplement, Vitobest uses vegetable capsules (VegeCaps) suitable for vegan diets and free of titanium dioxide. Product declarations (claims): Zinc contributes to normal cognitive function. Zinc contributes to normal fertility and reproduction. Zinc contributes to normal macronutrient metabolism. Zinc contributes to the normal metabolism of fatty acids. Zinc contributes to normal protein synthesis. Zinc contributes to the maintenance of bones in normal conditions. Zinc contributes to the normal functioning of the immune system.
