

Weider Prime 60 Caps

EAN: 8414192310366 FABRICANTE: WEIDER

Promotes natural testosterone production Quality ingredients. With Ashwagandha powder extract and Cordyceps.

DESCRIPTION

What is Weider Prime for?

Weider Prime ® is a prohormonal formula that enhances the natural production of testosterone, a key hormone in the development and maintenance of muscle mass, and also related to mood, energy expenditure and libido. This careful formulation includes a combination of active ingredients that have been specifically chosen to reduce the effects of stress and external factors that affect the natural production of testosterone. Among them, KSM-66 TM stands out, a patented extract of Ashwagandha, Bioperine ® and Cordyceps Extract, with numerous studies on their efficiency in physical performance.

How to use

2 capsules with food, in the morning and afternoon.
