How should the Calendula Cream Bath be used?

Before use, be sure to shake the product well. Then, add a splash of the product to your baby's bath water, making sure that the water temperature is around 37°C and that the depth of the water does not exceed 15 cm.

Then mix it by hand to distribute it evenly in the water. Once you've finished bathing your baby, wrap him directly in a towel to keep him warm and prevent him from losing heat.

Thanks to the natural ingredients of the product, it is not necessary to rinse your baby's skin after bathing, as these ingredients help prevent the skin from drying out. This way, you can enjoy a relaxing bath with your baby without having to worry about skin irritation or dryness.
