*This protective cream is suitable for any type of skin, including the most sensitive skin. It can be used on both the face and the body as part of the daily care routine. In addition, it is a good option for the whole family.*

### DESCRIPTION

#### What is the Weleda Calendula Protective Cream for?

Calendula cream is essential care for the whole family, thanks to its combination of nourishing and protective ingredients, such as sweet almond oil and beeswax, along with the soothing properties of organic calendula. It serves to prevent skin dryness and protects both the face and the body from external aggressions and adverse weather conditions, such as cold and wind. Calendula extracts provide immediate relief and calm for dry, sensitive and irritated skin."

#### What are the benefits of weleda Calendula Protective Cream?

The calendula protective cream protects the skin of the whole family from external aggressions, such as cold and wind, providing optimal hydration and care. It is suitable for both the face and the body, and is especially indicated for the most sensitive skin. It has been dermatologically tested and does not contain preservatives, dyes, synthetic perfumes or substances of petrochemical origin.

#### What are the ingredients of the weleda Calendula Protective Cream?

- Water
- Sesame oil
- Sunflower Petal Extract
- Lanolin
- hydrolyzed beeswax
- white beeswax
- glyceryl linoleate
- Sweet almond extract: Sweet Almond Oil is a soft and light oil that is characterized by its high skin tolerance. It is especially suitable for sensitive, rough, dry and flaky skin, making it a popular choice for babies and young children. This oil is rich in unsaturated fatty acids, such as oil and linoleic acid.
- Calendula Flower Extract: The flowers of the Calendula plant are recognized for their distinctive orange color. These flowers are rich in various beneficial compounds, such as carotenoids,
