

## Calendula Toothpaste 75 ml

EAN: 4001638098014    FABRICANTE: WELEDA

*Calendula toothpaste is a product that offers complete and natural care for teeth, allowing deep cleaning without the presence of menthol. This paste is compatible with homeopathic treatments, thanks to its BIO Calendula extracts that protect teeth and gums naturally. In addition, its formula allows deep and effective cleaning, achieving a sensation of freshness and well-being in the mouth.*

### DESCRIPTION

#### What is Weleda Calendula Toothpaste used for?

Calendula toothpaste cleans teeth in a deep and natural way, thanks to its calendula extracts with anti-inflammatory properties that help keep the gums and oral cavity healthy. Instead of menthol, this paste contains fennel essential oil, which offers a pleasant anise flavor and makes it compatible with homeopathy. Importantly, this paste is recommended for children ages 6 and up and a pea-sized amount should be applied for best results.

#### What are the benefits of Weleda Calendula Toothpaste?

Calendula toothpaste does not contain added menthol or fluoride. Its soft and effective formula allows a deep and complete cleaning of the teeth, providing a sensation of freshness and well-being in the mouth. In addition, thanks to its natural composition, this paste is a healthy option for daily oral care.

#### What are the ingredients of Weleda Calendula Toothpaste?

- Water
- calcium carbonate
- Glycerin
- Clay
- Calendula extract: The extracts obtained from the flowering aerial part of the marigold plants are characterized by having a color ranging from yellow-green to brown-green.
- Alcohol
- Myrrh Extract: Obtained from certain tree species, myrrh resin contains essential oils that give it a characteristic yellow to reddish color. These essential oils, rich in bioactive compounds, have astringent and toning properties that make them ideal for use in dental care.
- Xanthan gum (natural emulsifier and stabilizer)
- ammonium glycyrrhizate
