

Copper Tonic Gel 200 ml

EAN: 3596206262412 FABRICANTE: WELEDA

Copper tonic gel relieves the feeling of heavy legs. Thanks to its special formula, it helps stimulate the skin's microcirculation, providing immediate relief. In addition, it has been dermatologically tested and is ideal for use during pregnancy.

DESCRIPTION

What is the Copper Tonic Gel used for?

Copper Tonic Gel is an intensive care to relieve the feeling of heavy legs. Its special formula, rich in copper, lemon, witch hazel and arnica, helps stimulate skin microcirculation and provides a long-lasting toning action. In addition, it is recommended to take a shower or bath before its application for a more comfortable and relaxing sensation.

This product is 100% natural, which means that it can be used throughout the pregnancy without any problem. In addition, it has been dermatologically tested to guarantee its safety and efficacy.

What are the benefits of Copper Tonic Gel?

Copper tonic gel promotes improved blood and lymphatic circulation, which helps reduce the feeling of tired and heavy legs. In addition, its formula has toning properties that help strengthen the muscles and skin of the legs, giving them greater firmness and elasticity.

Regular use of this gel can help prevent the appearance of varicose veins and spider veins in the legs, since its toning action helps improve the elasticity of the veins and strengthen the walls of the blood vessels. All this contributes to improving the appearance of the legs, making them look smoother and more radiant.

What are the ingredients of Copper Tonic Gel?

- Water
- Alcohol
- Lemon fruit extract : Lemon fruit extract refreshes the skin and is perfectly suitable for the care of tired skin.
- Glycerin
- Arnica extract : Supports the metabolism of the skin by improving its elasticity and increasing its resistance. It also has an antimicrobial effect.
