

## Ratania Toothpaste Water 50 ml

EAN: 4001638098069 FABRICANTE: WELEDA

*This concentrated mouthwash is formulated with natural ingredients to provide fresh breath and strengthen bleeding gums. It is an effective way to keep your mouth healthy and free of harmful bacteria. In addition, its concentration allows economical and long-lasting use.*

### DESCRIPTION

#### What is Ratania Toothpaste used for?

The concentrated mouthwash contains plant extracts and essential oils that, combined with myrrh and rhatany, offer antiseptic and astringent properties that help maintain oral health. To use it, it must be diluted in water and its high concentration makes a 50ml bottle yield up to 5 liters of rinse. In addition to intensively refreshing your breath, it cleans and tones the gums, purifying the oral cavity and respecting its natural flora.

#### What are the benefits of Ratania Toothpaste?

This product has properties that act as an antiseptic and astringent, which helps maintain oral health. In addition, its formula intensively refreshes breath. It is important to note that this mouthwash is designed to be suitable for people with celiac disease.

## Ratania Toothpaste Water 50 ml

EAN: 4001638098069

FABRICANTE: WELEDA

- Alcohol
- Water
- Myrrh Extract: Myrrh resin contains essential oils, which are key ingredients for its astringent and toning properties. Myrrh extracts are used for dental care due to its benefits for oral health and also for the care of dull, tired skin.
- Rhatany extract: Rhatany, with an intense brown hue, is rich in tannins that have astringent properties on the oral mucosa, making it a highly suitable ingredient for dental and oral care products.
- flavorings
- Horse chestnut bark extract
- calcium fluoride
- Magnesium sulphate
- Lactose
- limonene
- linalool
- eugenol

### How should Ratania Toothpaste be used?

To use this concentrated mouthwash effectively, you should dilute 5 to 10 drops in half a glass of water and then rinse your mouth with this mixture. For best results, it is advisable not to rinse the mouth with water after the mouthwash. In this way, the antiseptic, astringent and refreshing properties of the product are used to the maximum.
