Web: <https://www.bioseleccion.com/>

In 1999, the company Bioselección was created with the interest of giving the entire Galician community easy access to natural and organic products, it was therefore the first distributor of organic products in Galicia.

DESCRIPTION

After a few years the economic crisis came, and this company sought collaboration to carry out its ideas, which was to start the manufacture of pastries and bakery products. They found the collaboration in the University of A Coruña, which to this day continues to collaborate with them in verifying the functionality of the composition of organic products, in order to give consumers a healthy and friendly product. throughout this year.
