

Xula Diana Black XS Thong

EAN: 8436596902565 FABRICANTE: XULA

Menstrual thong with a removable built-in pad system.

DESCRIPTION

Xula menstrual thongs are the only ones on the market with a built-in removable pad system that will make it easy for you to change them as often as you need. This system allows you to separate the thong from the bridge part and thus facilitate the necessary changes during the day depending on the amount of flow you have. A luxury that allows you not to have to undress completely when you want to change.

When I buy a thong, what does it include?

All our thongs incorporate a reusable cloth pad with moderate flow, **equivalent to two tampons** or approximately 15 ml of blood.
