Yaweco is dedicated to the manufacture of toothbrushes, with the difference that these brushes are partly reusable, that is, Yaweco brushes have a replaceable head with a bio-derived plastic, the handle remains reusable.

DESCRIPTION

Yaweco began its path in 2014, with the idea of launching the most biological toothbrushes possible on the market, this was achieved with the manufacture of a replaceable head but the handle is reusable. The range has recently been completed with bamboo brushes and cardboard packaging.
