FABRICANTE: YSONUT

*Disbiovance is a food supplement from the Iovance laboratory, based on extracts of garlic, cinnamon, rosemary, ginger and peppermint. Disbiovance from Iovance has intestinal antiseptic and antioxidant action.*

### DESCRIPTION

#### **I have frequent digestive problems, and I would also like to clean my intestine. What can I do?**

If you want to clean your intestine and have frequent intestinal problems, you should take Disbiovance, whose composition is 100% plant extracts and exerts an intestinal antiseptic and antioxidant action. You should take one tablet at noon and one tablet in the evening, before or during meals, with a glass of water.

#### **Either I have constipation or I have diarrhea and my stomach hurts a lot. What can I do?**

If you have constipation or diarrhea and your stomach hurts, you should take disbiovance, which will balance your intestinal microbiota and this will be reflected in relief of stomach pain and you will not have diarrhea or constipation. You should take one tablet before or during main meals, one at lunch and one at dinner, with a glass of water.

#### **I have reflux and bloating right after meals. What can I take?**

If you have reflux or bloating after meals, Disbiovance will help you due to its content of plant extracts that have an intestinal antiseptic and antioxidant action. You should take one tablet before main meals, one tablet at lunch and one tablet at dinner, with a glass of water.
