EAN: 3470024147963

FABRICANTE: YSONUT

Immunovance is a synergistic combination to support natural defenses and prevent infections of the upper respiratory tract, ie nose, throat and larynx.

DESCRIPTION

What is immunovance?

Immunovance is a food supplement based on extracts of echinacea, thyme, elderberry, propolis, vitamin C and zinc. Immunovance contains extracts guaranteed free of pesticides, heavy metals or other contaminants, and not irradiated.

What precautions should I take into account with Immunovance?

Taking three capsules a day of echinacea should not be prolonged for more than fifteen days without the advice of a health professional.

Does Immunovance have contraindications?

Immunovance is not recommended for pregnant women or young children.

How should I take Immunovance?

You should take one capsule with breakfast, one capsule with lunch and one capsule with dinner, in a large glass of water.
