

## Lactavance 30 Tablets and 30 pearls

EAN: 8441567267635 FABRICANTE: YSONUT

*Lactavance is a food supplement that is used for the production of breast milk due to its content in concentrated extracts of fennel, and essential fatty acids for the correct development of the baby's brain.*

### DESCRIPTION

#### What is Lactavance and what is it used for?

Lactavance is a food supplement from Inovance laboratories, based on plants, choline, vitamins, minerals and omega 3 DHA from microalgae oil. Lactavance is formulated according to the principles of rhythm nutrition for optimal efficacy while respecting biological rhythms.

Lactavance does not contain fish allergens and is suitable for a vegetarian and vegan diet.

#### How should I take Lactavance?

Taking Lactavance is recommended from the first day and throughout the period of breastfeeding. You should take one tablet in the morning and one pearl in the evening, with a glass of water.

#### Does Lactavance have contraindications?

Lactavance is contraindicated in pregnant women and children.
