### DESCRIPTION

#### What is Noctivance J syrup and what is it used for?

Noctivance J syrup is an Inovance food supplement based on vitamin B2, B3, B5, B6, B8 and B12 and hydroglycerin extracts of Escholtzia, lemon balm, lavender and linden.

Noctivance J syrup is used to help children fall asleep and to help them sleep through the night. Your children will no longer wake up during the night with Noctivance J syrup.

#### Can all children take Noctivance J syrup?

Noctivance J syrup is suitable for young children, from two years of age. The dose is easy to adapt according to age thanks to the dosing cap included in the package. Noctivance J syrup does not contain melatonin and is not addictive.

#### How much Noctivance J syrup do I give my child?

Noctivance J syrup should be taken pure or diluted in a little water, at night before going to bed or in case of waking up at night.

If your child is between two and five years old, you should give him 10 ml of syrup, at night, before going to bed.

If your child is between six and eleven years old, you should give him 15ml of syrup, at night, before going to bed.
