FABRICANTE: YSONUT

Oligovance is a food supplement rich in vitamins A, B, C, D and E. Oligovance contains zinc, magnesium, potassium, manganese and polyphenols. Oligovance is indicated for tiredness and has a citrus flavor.

DESCRIPTION

What is Oligovance and what is it used for?

Oligovance is a food supplement based on minerals, vitamins and vegetable extracts. Oligovance is used for fatigue, as an antioxidant, alkalizing and for physical recovery.

If you are on a diet to lose weight, taking Oligovance is indicated. In the case of regular sports, Oligovance can also be taken for physical recovery.

How is Oligovance taken?

Oligovance is taken orally. One sachet should be taken dissolved in 120-150 milliliters of water, mixed until completely dissolved and consumed immediately. Oligovance should be taken in the morning.

In the case of children between 6 and 11 years, they should be given half a dose.

Oligovance has the Spor protect certificate, that is, the absence of doping substances is guaranteed.

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241124
