### DESCRIPTION

#### What is Probiovance D and what is it used for?

Probiovance D is a food supplement based on specific probiotics, prebiotics and manganese. Probiovance D is formulated with a mixture of Bifidobacterium bifidum, Lactobacillus acidophilus, Saccharomyces boulardi and fructooligosaccharides.

Probiovance D is indicated for stomach pain, bloating, if you have a very sensitive intestine or if you often suffer from constipation.

#### How should I take Probiovance D?

Probiovance D is taken orally: You should take one capsule a day, outside of meals, preferably in the morning and with a glass of water.
